EDUCATION

University of Oslo Oslo, Norway
Bachelors, Mathematics and Computer Science Expected 2024

- Focused on Data Science and Statistical Learning.

PROJECTS

YapCap Project
Web Application for Time-Bound Meetings Product Hunt

- Developed using TypeScript and Next.js. Launched on <https://www.producthunt.com/products/yapcap>.

EXPERIENCE

Shepherd Oslo, Norway
Software Developer Intern June 2023 - Present

- Led the refactoring and migration of the app's Chrome extension to its latest version.
- Spearheaded the design and development of the extension popup using TypeScript, integrating advanced features such as optional permissions and efficient local storage management.
- Enhanced the app's UI by implementing intricate features, adeptly managing complex state transitions, and seamlessly integrating local storage with databases.
- Authored Python scripts to extract and analyze data from our database, providing valuable insights.

MindKind Remote, California, USA
Junior Fullstack Developer 2022 (2 months)

- Developed core features of the main product.
- Utilized TypeScript, React, Express.js, and Node.js.
